ABOUT

Thank you for your interest in being a Social Media Influencer for young people in Nebraska! If you love social media and like to share great content that starts conversations - this is the opportunity for you. We are looking for several Social Media Influencers (ages 14-26) that can help us to inform others on topics related to young parents.

PREGNANT AND PARENTING SOCIAL MEDIA INFLUENCER EXPECTATIONS

Project overview

The purpose of this initiative is to positively transform parenting behaviors and outcomes from those experienced by expectant and parenting young people whose lives are affected by involvement in foster care, juvenile justice, homelessness, runaway, and/or sexual exploitation. The overarching goal of the project is to prevent two-generation involvement in the child welfare system among 0-5-year-old children whose parents are in, or formerly were in, the foster care system and/or have experiences in the juvenile justice system, homelessness, sexual exploitation or were runaways.

Nebraska Children is looking to identify young mothers and fathers as social media influencers that we can utilize to help spread education and important information in order to help improve the lives of those who are pregnant or parenting.

Program objective

- Increase public knowledge about resources to support pregnant and parenting young people
- Identify new strategies to serve special populations

How will we measure success?

- Increase the number of engaged young fathers
- Increase the number of engaged African American young mothers and fathers
- Number of likes and comments (post metrics) on posts made by you!

Influencer content

Our goal is to target young people of all genders between the ages of 14-26. We want you to authentically share content and messages with your audience. You can post on the social media Channel of your choice and will be required to post weekly for the entire duration of your contract. We will provide you with some content but are also wanting original content. We ask that you send us the content you plan to post week prior to publishing for review.

Reporting

You will be required to submit a report every two weeks to be compensated. After your content has been approved, you will post the content and monitor performance (likes, comments, DMs, shares). You will be asked to switch your social media accounts to business ones as this will enable you to get the metrics necessary for your reporting. You will also be asked to use a specific hashtag with your posts.

Post Frequency

You will post the minimums according to desired platforms.

Instagram: 2 main feed posts weekly

Twitter: 3 tweets weekly

Facebook: 2 main feed posts weekly
